

Arahama Elementary School is where children, teachers, and local residents evacuated to and where the tsunami inundated up to the second floor in the Great East Japan Earthquake. This building preserved as it stood in the wake of the disaster is valuable, as you can feel the threat of tsunami not only through the physical scars left behind by the tsunami but also through the display of videos and photos.

**Earthquake Ruins:
Sendai Arahama
Elementary School**

Course 1·4·5

Sendai 3/11 Memorial Community Center is a base that connects wisdom and lessons through communication, using memories and experiences as a medium to continue connecting into the future and with the world. In addition to learning about the damage caused by the earthquake, visitors will see activities that convey thoughts on to future generations, such as exhibiting people's thoughts in various forms and holding workshops.

**Sendai 3/11 Memorial
Community Center**

Course 1·3·4

**Tagajo City Great East
Japan Earthquake
Monument**

Course 2

This monument has three objectives: memorial service, lore and vows for disaster mitigation. The height of the pillar is 4.6 meters, which is the same as the maximum height of the tsunami that hit the city, and expresses a part of the "memory" of the earthquake with the scale of the monument. Through a powerful design, the two overlapping arches express the desire to convey the memories of the earthquake disaster to the next generation and beyond without interruption.

**Minami-Gamo
Wastewater Treatment
Plant**

Course 4

Minami-Gamo Wastewater Treatment Plant, which handles sewage treatment, was devastated by the tsunami of the Great East Japan Earthquake.

As it is indispensable to daily life, the newly built facility is future-oriented, saves energy and has a low environmental impact, aiming not only for early recovery, but also to "Build Back Better" to be more resilient than it was pre-disaster.

Course 1 November 10, 2019 (Sun) The 27-hour story after the Great East Japan Earthquake

Capacity: 30 people (Participation fee: Free)

Visiting the Ruins of the Great East Japan Earthquake: Arahama Elementary School, Residential Foundation, Arahama Area of Sendai City, and Sendai 3.11 Memorial Community Center. See what happened in the 27 hours after the Great East Japan Earthquake, and get a feeling of the threat of a tsunami by viewing the school building where the tsunami's scars remain.
