Mobilize

Sendai Framework Voluntary Commitments (SFVC) **online platform**

An all-of-society approach leaves no one behind when it comes to building society's resilience to disasters

- **Break down barriers and institutional silos**
  - Among governments, International Organizations and stakeholders

- **Stakeholders:**
  - Inform about their work on DRR (who is doing what and where); collaborate; and motivate others through good practices

- **UNDRR:**
  - Mobilize, monitor and take stock of VC supporting the implementation of the Sendai Framework for Disaster Risk Reduction

- **Factual reporting tool rather than only a record of aspirations**
  - Progress reports and deliverables

Stakeholders' **"commitment, goodwill, knowledge, experience and resources will be required."**

Building Resilient Local Government Systems in the Philippines

Implementer(s): Ateneo de Manila University, Manila Observatory, the, National Resilience Council, Zuellig Family Foundation

Scope: Local

Countries: Philippines

Version: 1.1

NRC commits to building a resilient Philippines using S&T-based public-private partnerships, enhance LGU capacities with evidence-informed risk governance, strengthen and sustain high-level collaboration between government and industry and launch the resilience program with a core group of LGUs.

New

Last updated: 16 Apr 2019

Building Resilience of Small and Medium Enterprises (SMEs) in the Philippines

Implementer(s): SM Prime Holdings, Inc.

Scope: Local

Countries: Philippines

Version: 1.0

The provision of Information, Education and Communication (IEC), capacity building and data back-up storage facility as one of the disaster risk reduction (DRR) strategies to SM's Small and Medium Enterprises (SMEs) will enable them to bounce back after an occurrence of any disaster.

New

Last updated: 6 Apr 2019

Global Centre for Disaster Statistics (GCDS)

Implementer(s): Fujitsu, International Research Institute of Disaster Science, Tohoku University, United Nations Development Programme

Scope: Global

Version: 1.0

The Global Centre for Disaster Statistics (GCDS) aims to support the monitoring and evaluation of progress in the implementation of the Sendai Framework for Disaster Risk Reduction, in its seven global targets.

Overview: a submitted VC (example 1, page 1)

COMMITMENT	ID	DURATION	LAST UPDATED	VERSION	STATUS
Improving Disaster Resilience in an Ageing Greater Manchester	20190205_002	Jun 2018 — Mar 2020	20 Aug 2019 00:00	2.1	Active

The commitment aims to ensure that older people are heard when designing disaster resilience building programmes, enabling Greater Manchester to co-identify potential solutions and approaches to resilience.

MAIN FOCAL POINT
Karl Astbury

Deliverables

Deliverables are the end-products of the initiative/commitment, which can include issuance of publications or knowledge products, outcomes of workshops, training programs, videos, links, photographs, etc.

Workshops and Literature Review

Due Date: 31 Oct 2018

Our approach for this research was to identify and bring together older people from across identified areas of Greater Manchester (with an awareness of the differences in approach needed for different geographical areas), with a particular targeted focus on members of marginalised communities within ageing into a series of workshops and structured interviews.
Three marginalising characteristics were chosen for these conversations, which took place over a number of focus groups and workshops. These were:
☐ Retired older men from Salford.
☐ Older Asian Women in Oldham.
☐ Refugees.
We carried out workshops in areas that had experienced flooding, riots, explosions and fire.
These workshops and conversations focused on the stresses that can lead to the inability of communities to deal effectively with shocks, focusing on the key areas of social cohesion and population growth.

Output of Deliverable:
🔗 Resilience in an Ageing Greater Manchester Report

Present Findings to EFDRR

Due Date: 31 Dec 2018

At the European Forum for Disaster Risk Reduction, a presentation called 'Every Life Counts: Inclusive and quality based disaster

Reply all | ^

Dear colleagues,

I read with interest the Voluntary commitment made by IUCN. I am involved in two voluntary commitments in India and Myanmar both of which are on the current updated list.

Is this a old commitment made at time of Sendai? Is EPIC still ongoing or is a new phase being planned.
I trust you will be coming to the forthcoming session of the Global Platform. Let us set up a meeting there.

We can also exchange notes in advance on how we can collaborate. And also a skype conversation.
We should also discuss on how to collaborate in each others voluntary commitments.

Looking forward to hearing from you,

Warmly,
Loy Rego

Reply all | ^

Dear Loy,

Apologies for the delay in responding to your email, I was on mission with limited internet connection.

Thanks for reaching us out and the interest you have shown in our commitment. Indeed the EPIC project finalized in June 2017 and we would like to have a phase II building on the lessons learnt as well as knowledge and evidences generated during the project.

IUCN, particularly the Ecosystem Management Programme, will participate at the GPDRR and had submitted a couple of proposals for the ignite Stage.

Definitely we can discuss prior to the event via Skype. Would Wednesday or Friday this week work for you?

All the best,
Verónica

*Mr. Loy Rego and Ms. Veronica Ruiz Garcia gave consent to be mentioned in this report as an example of communication in this report.

Highlight

Local government capacities enhanced through public-private partnerships in the Philippines
30 Aug 2019

Photo representing the voluntary commitment "Building Resilient Local Government Systems in the Philippines."

A partnership of four organizations and three donors is working to enhance the disaster risk reduction capacities of local government units (LGUs) in the Philippines. The National Resilience Council, Ateneo de Manila University, Manila Observatory and Zuellig Family Foundation are collaborating to implement the voluntary commitment "Building Resilient Local Government Systems in the Philippines."

This commitment showcases an example of collaboration between government, the private sector, academia and civil society, fostering public-private partnerships (PPPs) informed by evidence from science & technology. The commitment also displays coherence across agendas, as it is aligned with national legislation and global instruments such as the SDGs, the Paris Agreement, the New Urban Agenda and the Sendai Framework.

Good practices

Data → Analysis →Evidence, Trends, Gaps, Challenges →**Support future policy setting**

VCs last 6.5 years on average, have mainly national or local scopes and are concentrated in the Asia region

- 26 VCs were published in the SFVC online platform (as of 06 April 2019)

- The Philippines is the country benefiting from more VCs

Figure 8: Countries covered by VCs with scope both regional and national/ local

Implementer(s): Fujitsu, International Research Institute of Disaster Science, Tohoku University, United Nations Development Programme
Scope: Global
Version: 1.0

The Global Centre for Disaster Statistics (GCDS) aims to support the monitoring and evaluation of progress in the implementation of the Sendai Framework for Disaster Risk Reduction, in its seven global targets.

Enhance Disaster Governance at National, Sub-national, Local level

New

Last updated: 6 Apr 2019

Implementer(s): Environment and Child Concern Organization
Scope: Local
Countries: Nepal
Version: 1.0

Provincial Government of Province 1, Nepal is going to formulate key policy documents as Disaster Resilient Policy, Strategic Action Plan, Disaster Response Framework, and Disaster Impact Assessment Guideline in the year 2019.

Users can see the results of a search in a map

Coverage of commitments worldwide

☑ NATIONAL OR LOCAL ☑ REGIONAL

8 GLOBAL
Commitments with scope global are open to all countries or territories in the world. Therefore, they are not reflected on the map.

Europe 2
Asia 16
Americas 4
Africa 5
Oceania 1

1 - 10   11 - 20   21 - 30   31 - 40   41 - 50   More than 50   No Data

All 2015-2030
2015 2016 2017 2018 2019 2020 2021 2022 2023 2024 2025 2026 2027 2028 2029 2030

Data in the map reflect the number of countries/territories or regions covered by voluntary commitments. Except for global, they do not reflect the total number of voluntary commitments (for instance, one commitment may cover three regions at the same time).

This map, the designations employed, and the presentation of the data do not imply the expression of any opinion whatsoever on the part of the United Nations Secretariat concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delineation of its frontiers or boundaries.

COMMITMENT: Youth Resilient Ambassadors
IMPLEMENTERS: SAHEL RESEARCH AND STRATEGY
GROUP KENYA, Society of Fire and Disaster Emergency
Community Conflict Agency

COMMITMENT: Enhance Disaster Governance at National, Sub-national, Local level
IMPLEMENTERS: Environment and Child Concern Organization

Way forward

COMMITMENT: RegionsAdapt
IMPLEMENTERS:Network of Regional Governments for Sustainable Development

Way Forward: Interconnected challenges demand an interconnected actions to reduce risks and build resilience

- Coherence across agendas and tools

- Further dissemination and promotion to increase the number of VCs
  - Balanced coverage on:
    - Priority 3, Targets D, and F are less covered
    - Children & youth, gender, and advocacy & media are less covered
  - Better way to measure good practices
  - SFVC country profiles

- Ensure that non-State support to DRR is accounted for and assess the implementation of the Sendai Framework and SDGs

- Align efforts in the same direction with increased effectiveness and impact

Figure 4: Coherence

# Way forward: An all-of-society approach recognizes values and incorporates the efforts of all relevant actors

We encourage to disseminate the platform and log more voluntary commitments!

Dissemination:
- Disseminate SFVC in regional events:
  - ❑ Regional platforms
  - ❑ Other regional events
- Others (local events, networks, etc.)

- *data, figures, documents, links, etc.* that support your achievements

< 150 words

3. HOW ARE YOU ASSESSING PROGRESS? 🔒

How you will know the goal(s), objective(s) and/or deliverable(s) are being reached. Ideally:

- *methods to collect* the evaluation information,
- *methods to analyse*,
- *when* evaluations are being conducted,
- *who* is responsible,
- *how* results are used

< 150 words

4. CHALLENGES IN IMPLEMENTATION 🔒

Any *specific challenges* faced in implementing and achieving results (financial, human resources, etc.)

< 100 words

*Questions 3-5 are only visible to UNISDR and will inform the overall reporting at global level.

5. STEPS FOR NEXT YEAR? 🔒

Highlight *actions and plans* to take *for the next one year* to advance implementation of this VC.

< 100 words

Timeline for Progress Reports

- Fulfilling the submission of Progress Reports can change the status of your VC
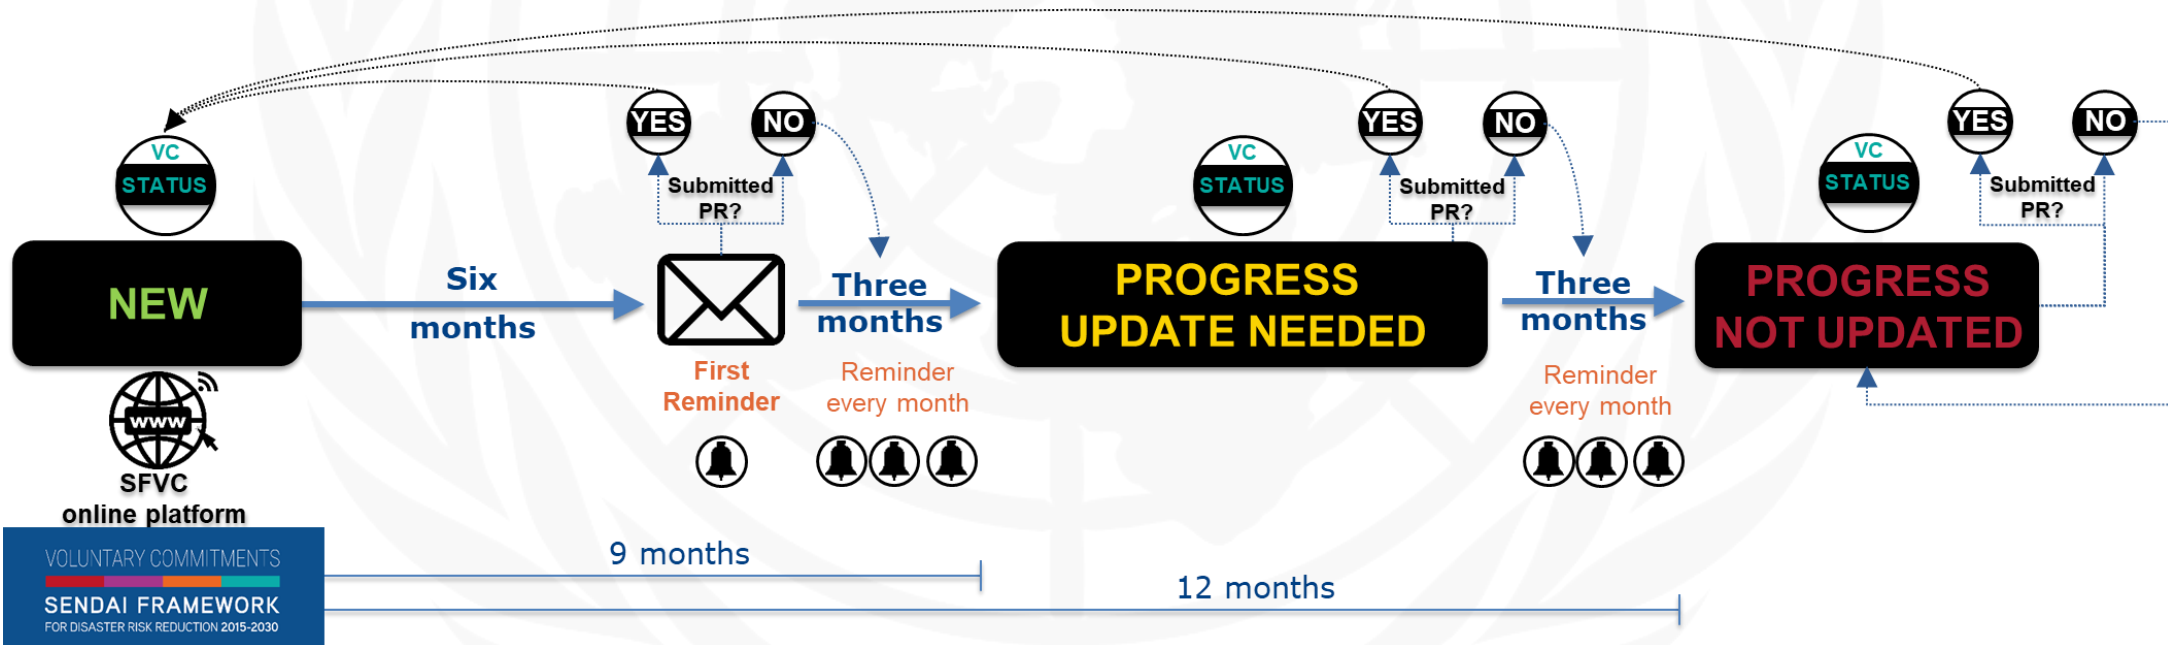

Appendix
Deliverables

———

COMMITMENT: Restoring the Human Spirit Through Music
IMPLEMENTERS: Soka Gakkai International

Timeline for Deliverables

- Fulfilling the submission of deliverables can change the status of the VC

Once the intended date of delivery is reached, please submit Deliverables

- Deliverables are specific outputs/outcomes that demonstrate the results of executing the VC

Promoting Child-Centred Disaster Risk Reduction: The case of Nepal

COMPLETED

Due Date: 31 Dec 2018

After conducting two workshops in Nepal, we produce a publication that includes educational and knowledge materials. The contents could be useful for other organizations working on DRR activities focused on children. We also include an evaluation of the impact and lessons learned from our program.

Output of Deliverable:

Promoting Child-Centred Disaster Risk Reduction: The case of the Philippines

Due Date: 30 Jun 2019

After conducting three workshops in the Philippines, we produced this publication that includes educational and knowledge materials. The contents could be useful for other organizations working on DRR activities focused on children. We also include an evaluation of the impact and lessons learned from our program.

Output of Deliverable:
Add output of deliverable

Promoting Child-Centred Disaster Risk Reduction: The case of Japan

Due Date: 31 Mar 2020

After conducting two workshops in Japan, we produced this publication that includes educational and knowledge materials. The contents could be useful for other organizations working on DRR activities focused on children. We also include an evaluation of the impact and lessons learned from our program.

Output of Deliverable:
Add output of deliverable

Remember that in STEP 3, you listed and provided a specific description for each deliverable associated to your commitment.

UPLOAD OUTPUT OF DELIVERABLE

Output of Deliverable:
Add output of deliverable

Publications, outcomes of workshops, videos, links, photographs, etc.

Your highlight can be featured both in the SFVC online platform and PreventionWeb.

Appendix
Extra

COMMITMENT: Seminars of the Sendai Framework for DRR for citizens in Sendai City
IMPLEMENTERS: Tohoku University (IRIDeS) and Sendai City

The resilience of communities and nations is a necessary condition for achieving the goals of the global agendas

SUSTAINABLE DEVELOPMENT GOALS

SENDAI FRAMEWORK
FOR DISASTER RISK REDUCTION 2015-2030

THIRD INTERNATIONAL CONFERENCE
FINANCING FOR DEVELOPMENT
13-16 JULY 2015 · ADDIS ABABA · ETHIOPIA
TIME FOR GLOBAL ACTION
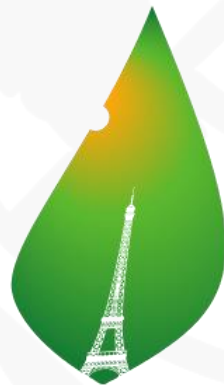

PARIS2015
UN CLIMATE CHANGE CONFERENCE
COP21·CMP11

NEW URBAN AGENDA

- Disasters can rollback development gains
- Some weather events appear more frequent, intense and with longer durations
- From 2000 to 2018, on average every year:
  - 200 million people affected
  - 70,000 lives lost
- USD520 billion a year in costs to the global economy
- Natural hazards affect low-and-middle income countries more severely in terms of loss of lives, homes and livelihoods
