Message from Tokushima

Inclusive BOSAI

through the preparation of a disaster recovery plan and the disaster management catering to each victim's needs

The Sendai Framework for Disaster Risk Reduction was adopted at the Third United Nations World Conference on Disaster Risk Reduction in Sendai in 2015. In this framework, to “Build Back Better” was defined as one of the priority actions to be achieved on a global scale. In Japan, the importance of pre-disaster recovery planning has been advocated, in which diverse stakeholders are involved and post-disaster recovery plans are devised even before a disaster occurs.

**Venue : Sendai International Center
Tachibana Conference Hall
(Conference Bldg. 2F)**

Program

4:40PM Opening/Introduction

4:45PM Speeches

- Japan's initiative to develop a disaster recovery plan in advance
- Disaster recovery policy in Tokushima Prefecture, which has not been affected by major disasters for many years, but needs to be prepared for disasters anticipated to occur in the near future
- Disaster recovery plan in Minami-cho

5:15PM Panel Discussions

- Purpose and effects of preparing a disaster recovery plan
- Issues to be addressed in order to promote and accelerate the initiative

6:05PM Closing
